A cancellation fee equivalent to 50% of the fee for the services to be provided at an appointment will be charged if clients do not attend without giving at least 24 hours notice of cancellation.

If clients are more than 15 minutes late, their appointment may have to be moved or cancelled at Doctor's discretion so as not to delay other clients, this incurring a cancellation fee, at the discretion of FarleyMed.

Note: Fees for blood analysis and other pathology investigations are based upon the variable charges made by the Laboratory undertaking these tests including packaging, couriering, and a service charge to FarleyMed for taking these samples. These tests are not included in the cost of consultation.
